**PHOENIX - July 7, 2021** – MUTOH America, a leader in wide-format inkjet printers, cutters and inks, is excited to announce the release of their new, MS31 Eco-Solvent Ink. New enhancements developed for MS31 Eco-Solvent Ink include a wider color gamut, better adhesion, improved dot gain along with excellent weather abrasion / chemical resistance all which result in enriched image quality. MS31 inks include an Avery ICS Performance Guarantee, as well as GREENGUARD Gold Certified.

MS31 is a direct replacement to Eco-Ultra VJ-MSINK3A inks that have been discontinued and requires no special flushing when switching from one ink to another. Additionally, no special firmware update is needed, and the new Eco-Solvent ink comes in convenient 220ml, 440ml cartridges and 1000ml ink bags.

Eco-Ultra inks are now discontinued and are available while supplies last. Contact your dealer for availability.

Supporting healthy living environments is important to MUTOH, and a GREENGUARD Gold Certification of MS31 Eco-Solvent Ink means this product has low-emitting volatile organic compounds and is safe to use in sensitive areas such as hospitals, schools and daycare facilities.

MS31 Eco-Solvent Ink is used in ValueJet printer models VJ-628, VJ-628X, VJ-1324X, VJ-1624X, VJ-1628X, VJ-1638X, and VJ-2638X.
