MUTOH
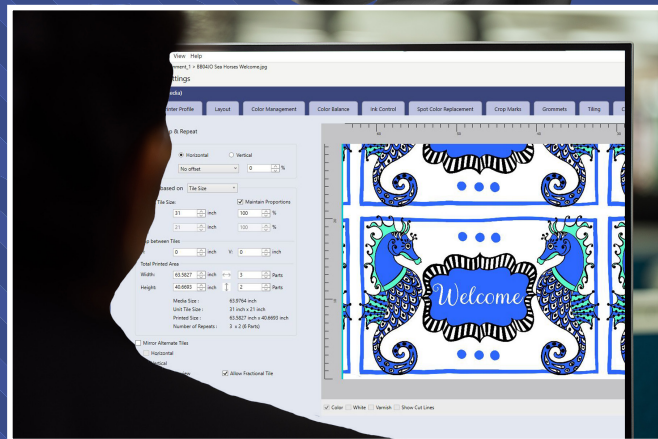

## VERTELITH™ GENUINE RIP SOFTWARE

VerteLith™, MUTOH's Award-Winning Genuine RIP Software is easy to use and designed to optimize the output of MUTOH brand printers. It includes advanced functions such as MUTOH Clear Tone, an original half-tone technology which achieves beautiful image quality and smoothness. VerteLith™, also features two enhanced preview functions. A soft proof function simulates the color of the printed output on the screen and the RIP preview function displays the actual printing dots on the screen prior to output. These new features allow users to enjoy a "what you see is what you get" RIP environment. In addition to auto-generation of PANTONE© coated/uncoated spot colors, VerteLith™, includes various tools and functions to create rich, textured prints without complicated steps. VerteLith™, is available with select MUTOH printer models.
