The MUTOH **ValueJet 628MP** Multi-Purpose Printer is a user-friendly inkjet printer designed to support both 24" wide roll media and sheet media. With multi-purpose "MP31" ink, this printer reliably produces exceptional prints on a wide variety of substrates. MP31 ink is equivalent to eco-solvent ink in weather resistance, abrasion resistance, and color development while providing a smooth, natural finish that brings out the natural appearance of the substrates. Ideally used to produce small-lot gifts, novelty items, packaging prototypes, stickers, and more, this reliable printer delivers high-quality results.

The ValueJet 628MP has an expanded color gamut, supporting up to 8 colors, including light inks or spot-color inks such as orange, blue, and green. More color variety allows for smoother gradation expression and improved gray balance and color adjustment. The MP31 ink has remarkable flexibility, it won't crack even when bent and can be printed and processed on vacuum-formed and shrink-wrapped materials. Whether your focus is on commercial printing, industrial applications, or sign and display projects, this 24" Inkjet Multi-Purpose printer is up to the task.

- **Wider opening** for ease of daily maintenance.
- **Space saving design** with easy installation as standard equipment.
- **MP31 Ink** is resistant to heat, stretching, and blending. Ideal for packaging prototyping, vacuum/thermoforming, labels and more.
- **4-8 color configuration** to significantly expand your color gamut.
